

Congratulations! If you are reading this page it means that you have finally come to your senses and realised that your true calling is to worship Me as your Mistress and Goddess. First of all – *it's about time!!* You know that the whole point of your being is to please Me and to provide the luxurious and extravagant lifestyle that you know I deserve.

Financial Domination is an excellent opportunity for those who may not be ready for physical play yet and is the spiritual act of servitude manifested in the tributes & gifts you give... your cash symbolizes your love for Me. And guess what? You give and give again. If I cannot physically beat you in cyberspace, I can certainly make you hurt in many more creative ways. If you cannot kneel before Me in person, you can certainly offer your heart to Me on a platter by becoming My money slave.

FD is a great challenge for those who enjoy the unexpected mind games and psychology of D/s. However, **IT IS NOT** a venture suitable for those who are vulnerable, insecure, or suffering mental difficulties.. Should you have any of these problems, please go no further.

What is Financial Domination? Within the realms of F D I choose to amuse myself with in two areas: **Financial Slavery** and **Financial Blackmail**. *See the definitions below.* But first we must discuss **Honesty & Trust**. Many domination websites offer FD simply as a money-making exercise for the Domme and having no care for the actual needs of the slave, taking them for everything they have simply out of greed. I do not intend to bankrupt you (unless you want to play that far). We will play to agreed financial limits. Financial Domination is not about bleeding you dry and giving nothing back. It is a game we both play – I take pleasure, you suffer. Simple!

Where to start?

Below are details of how to send an initial email of introduction to me, please read it carefully and comply or your request will immediately go to My recycle bin. Contact by phone or in person is a reward only be given to those slaves who actually commit to tribute, send gifts or make monthly payments.

In the first instance **all** money slaves, pay pigs and wallet worms should contact me by email at mvenus@hotmail.co.uk with a polite message of introduction containing the following details:

Age; location; brief background information about yourself; and any relevant financial slavery experience you have to date. Also include in which capacity you wish to apply for Financial Slavery: in the form of a monthly set amount, being an ATM slave, shopping slave or pay pig, or whether your main interest is Financial Blackmail. *Please read further on for the important differences between Financial Slavery and Financial Blackmail.*

IF YOUR EMAIL DOES NOT CONTAIN THE ABOVE DETAILS I WILL NOT RESPOND!

In all cases, whatever type of financial slavery interests you, it will be required that you prove you are financially able to make a tribute or send a gift, so be prepared to make a tribute before any in depth detailed discussions take place – I am not prepared to waste my valuable time with people who have no intention of fulfilling their promises. Always remember that My time is your money!

My rule is that verification/confirmation of your tribute, gift or payment **MUST** reach me before I proceed. I have no time for time wasters and if you **CANNOT** tribute then go away until you can - do not bore me with excuses and sob stories.

Keep your communication short and to the point – I have no time for ramblings and should I require your scenario input I will ask for it. Nor should you send a list of your own demands – remember, this is about MY pleasure, not about you!

Once you receive my reply:

1. Fill in the Financial Domination application form attached to my reply email. If you interest Me I will advise your that your application, is accepted. You will then be asked to make an initial tribute.

2. Once this is received, we will discuss details of our contract including the amounts of each payment. You will then be sent (via email) a contract for you to read through, sign and return. *(In the case of Financial Blackmail, this will include the following information: Work address, work telephone number and any other details I require. Once your signed contract is received, we will arrange to meet so I can obtain the necessary evidence about you and details of the people from whom you wish to keep this evidence. This will involve either recording your confessional conversation, your handing over of incriminating documents or taking compromising photographs of you.)*

3. We will then exchange the necessary details for you to set up making payments to me.

4. You start paying, and I have fun!

THE DIFFERENCES BETWEEN FINANCIAL SLAVERY AND FINANCIAL BLACKMAIL

Financial Slavery: This is when you tribute money or gifts to me voluntarily:

Your giving is an act of love, of submission, of devotion. It is just one form of expression in a multi-faceted experience of devotion and emotion. And While it's true I do offer you some compensation in terms of my attention from time to time, you should know that it is on the understanding that it will cost you all you can afford. Is that clear? Furthermore, when you send money or gifts you should also realise that it is on the understanding that you are not buying my time or affection. You pamper and spoil me with your tributes, I give you nothing unless I so wish.

There are various ways you can become a money slave to your beloved Mistress:

You can make me an additional cardholder on your credit card accounts.

You can adopt a bill each month: e.g. mortgage, utilities, telephone, council tax, etc.

You can send me a pre-paid credit card and top it up every month for my personal spending.

You can make a payment directly into my bank account by Standing Order.

You can send cash by recorded delivery to my snail mail address which you will be given when you've earned that privilege.

You can make a payment to my PayPal/Nochex/Moneybookers account.

Here are **The Rules** for **Financial Slavery** – which must be strictly adhered to!

1. Decide at the outset what kind of money slave you wish to be (though you may be permitted to change this at a later stage, if for example you want to take on more).

Do you want to pay a particular bill for me on a regular basis?

Do you want to fund my shopping trips?

Do you want me to be an additional cardholder on your credit cards?

Do you want to pay regularly into my holiday fund?

Do you want me to have a pre-paid credit card which you will top up each month?

Do you want to pay a specific amount each month by cash or electronic payment?

Do you want to pay for my shoes and clothing?

The choice is yours – and the pleasures all mine!

2. To become a useful and treasured money slave, pay pig, cash cow or wallet worm, to be used financially or milked of your money you **MUST** have sufficient funds and actually be able to tribute.

3. If you do commit to a monthly payment, it is exactly that: A COMMITMENT! I do not want to find on the due date some weak excuse in my inbox: "I'm sorry Mistress, I can't afford it this month." Excuses will **NOT** be accepted – the first time you miss a payment, will be the last time you have any communication with me.

4. Do not pretend to be something you are not – for example: WEALTHY! If you have a low income you can still be my money slave – just offer what you can reasonably afford.

5. To begin with, I prefer to play from a minimum of 1 month to a maximum of 6 months. After this initial probation period, we will redefine our boundaries, rules and tributes. Play can be stopped at any time after an agreed notice period.

Financial Blackmail: This is when if you don't pay, I will ruin you! (Even though you choose to play).

Let's firstly begin by defining Blackmail. Blackmail is the act of threatening to reveal damaging or embarrassing information in order to coerce money or other goods or forms of cooperation out of the victim. For blackmail to be effective, the blackmailer must, in most cases, have physical proof of the information she threatens to reveal, such as photographs or letters. Financial Blackmail by a Mistress is a game, played by two consenting adults within set parameters. It is similar to financial slavery but without the option or ability to discontinue the game without a pre-arranged get-out clause. It is a game suited for those who enjoy the unknown, a challenge and mind games. I have the ability to ruin you, to bleed you dry. I know your fear of exposure and ruin excites you and is often the impetus for giving more. Will I act on your fears? One can only guess. My pleasure is of the utmost importance. Keep Me happy and I may not ruin you, unless you beg Me nicely... your demise is at My capricious whim.

You see – it's very simple for you to get your heart's desire, and for Me to get your money!

Here are **The Rules** for **Financial Blackmail** – which WILL be strictly adhered to!

1. If you do commit to FS, it is exactly that: A COMMITMENT! I do not want to find on the due date some weak excuse in my inbox: "I'm sorry Mistress, I can't afford it this month." Excuses will NOT be accepted – see below for the consequences of defaulting on your promise.

2. I will play within the initial monthly budget you set. Spending your hard earned cash can come in many forms, (see ways to pay below). I will telephone or email you without notice and demand you show your subservience to me in a variety of ways. Examples include but are not limited to:

- Removing yourself from your work and going to the men's room to relieve yourself.
- Demanding you spend your lunch hour shopping with me.
- Telephoning you during work and requiring you to pay for items I have purchased over the phone.
- Demanding you wear ladies' underwear to work.

3. To begin with, I prefer to play from a minimum of 1 month to a maximum of 6 months. After this initial probation period, we will redefine our boundaries, rules and tributes. Play can be stopped at any time as long as the slave/blackmailed purchases his/her embarrassing information from Me using the following buy-out option.

Buy-out option Within the contract the slave signs and agrees to, there will be a 'buy-out' clause. This will state that for a particular sum of money (pre-arranged) the slave can buy his embarrassing information back and thus end the game.

4. The consequences of not complying with Mistresses wishes? If payments or other requests are not made as necessary, a three-step punishment plan activates. Take heed. I take this game VERY seriously. Do not think I will not carry out my blackmail. I will.

The 3 Steps.

1. A warning phone call - requesting immediate payment

2. If no payment received within 48 hours, another phone call & email demanding payment or requested activity

3. Final phone call outlining that embarrassing items have been sent to relevant contacts. End of game, no further communication from or with me - EVER!
